Webinar Participant
1st Position for AIELTS Startup at
UIHP funded by World Bank, ICT
Ministry Bangladesh, Hi-Tech Park

SK. YEASIN AHSANULLAH AI- GALIB

software Developer • AI Developer • AI-ML • Networking •
Automation • Cross Platform • Web Developer
Khulna, Bangladesh

Summary

Hi, I'm Sheikh Yeasin Ahsanullah AI-Galib, a driven software developer blending academic rigor with real-world innovation. My toolbox spans Python, C/C++, Rust, Laravel, React, React Native, and more—with a deep focus on building scalable solutions across PC, web, and mobile platforms.

I specialize in AI/ML development, cloud-based applications, and DevOps workflows, including Docker and AWS CI/CD pipelines. If it can be coded in Python—I can build it, optimize it, and scale it. Beyond Python, I also work fluently in the React and Laravel framework, delivering robust web solutions.

As a Computer Science student at Northern University of Business and Technology, Khulna, I balance theoretical insight with hands-on experience. At PieBD Software Firm, I engaged in cutting-edge AI projects, conducted research, and gained foundational skills in networking—expanding both my technical and strategic thinking.

I'm also the founder of AIELTS, an AI startup recognized by Bangladesh's ICT Ministry and Hi-Tech Park for its groundbreaking contributions. My professional journey includes diverse roles such as GenB Catalyst at Bkash, where I led impactful local marketing campaigns; and Campus Ambassador at Global Consultancy, representing my university and mentoring peers.

My passion is clear: pushing the boundaries of technology to solve complex challenges, lead innovative projects, and drive meaningful impact.

October 2024 - Present (2 years)

Khulna, Bangladesh

AIELTS is an innovative AI-powered language learning platform designed to help learners master English with efficiency and ease. Combining cutting-edge artificial intelligence with personalized learning strategies, AIELTS provides a dynamic learning experience tailored to each individual's needs. Whether you're preparing for the IELTS exam or simply looking to improve your language skills, AIELTS offers comprehensive lessons, real-time feedback, and interactive exercises to enhance your learning journey.

AIELTS is funded by the World Bank, Bangladesh ICT Ministry, and Bangladesh Hi-Tech Park, and has been recognized for its innovative contributions. It was also awarded by the University Innovation Hub Program for its impact on education and technology.

Our platform uses AI to analyze your progress, identify areas of improvement, and adapt to your learning pace, ensuring that every lesson is relevant and impactful. With AIELTS, learners can access a range of resources—from vocabulary building to speaking practice—while receiving targeted support to achieve their language goals.

By leveraging technology, AIELTS aims to make language learning more accessible, efficient, and enjoyable, empowering individuals to unlock new opportunities in both their academic and professional lives.
